6741		7261	7381	18D87		1573			

The above listed hybrid varieties will be eligible for the **SEMO Milling Premium Partner Program** during the 2019-2020 crop year.

These varieties **do not have to be NGMO**. Producers can plant traited versions of these hybrid varieties and still qualify for the SEMO Milling Premium Program.

Our Premium Partner Program for 2019-2020 will be a **\$.10/bu premium**.

These bushels must be certified with SEMO at the time of sale to guarantee premium.

Delivery limitations based on SEMO Milling's ability to receive grain due to lack of space within the elevator will not negate the producers obligation to deliver the contracted production to SEMO Milling.

Delivery slots will be booked on a first come, first serve basis.
